

# MAXIMUM COMFORT MAXIMUM PERFORMANCE

*Polylast™ SurfaceGuard with Microban®  
Antimicrobial Technology*

When performance matters, safety and comfort are key! Whether it's in your trailer, wash racks, aisle ways, or any other locations that your horses frequent, Polylast™ offers the best slip-resistant surface available. The Polylast™ cushioning effect absorbs 40% to 50% of the impact shock on your horse's hooves, which means that even horses with hoof or leg soreness are more comfortable. Since your horses don't have to strain to maintain their footing they can be more relaxed and ready to perform even better!

No mats are used in a Polylast™ floored trailer so there are no mats to pull, clean and replace. *Imagine never having to pull mats again!* This porous surface allows fluids to flow through, and eliminates the need for any bedding, saving you time and money on bedding and labor. This also means your horses breathe cleaner air and stay cleaner.

Polylast™ surfaces offer the exclusive advantage of Microban® Antimicrobial Technology. On an unprotected surface, bacteria can double in number every 20 minutes. Microban® is infused into Polylast™ during the manufacturing process to help prevent the growth of damaging bacteria, as well as inhibit stains and odors caused by bacteria.

Visit [www.PolylastSystems.com](http://www.PolylastSystems.com) or contact Polylast™ at (480) 998-3033 to find your nearest Polylast™ dealer.

MADE IN USA

MULTI-PURPOSE RECYCLED RUBBERIZED FLOORING

Microban® is a registered trademark of Microban Products Company.  
Polylast Systems Patent No.: US 8,389,624 B2 issued March 5, 2013.

# POLYLAST™

**BEST UNDER HOOF & FOOT**  
with Microban® Antimicrobial Technology

“ I started installing Polylast at my “Almosta Ranch”, five years ago. It is in my stalls, wash racks, saddling areas, and hot walker. Polylast is durable, long lasting, looks great, and actually saves me time and money on cleaning and maintenance. I have never used a product that provides my horses with the comfort and safety of Polylast. My horses are better off because of Polylast, and yours can be too! ”

*Al Dunning*
